Welcome – Keith Dudenhoefter, DIFP

Department of Natural Resources – Deanna Treu,

Director of Professional Development & Training

Ms. Treu spoke to us on how to understand and bridge the generational gap in the workforce. She explained the different generations, what to expect from them and reasons why we need to bridge the gaps in the workforce.

OA Accounting – Libbie Farrell

Ms. Farrell let us know that the new MOBIS reports, with just the last 4 digits of the SSN, will be available after the October 15, 2014 pay cycle.

OA Personnel – Guy Krause

Mr. Krause let us know that there are new leave codes for use regarding the Workmen's Comp and Share Leave for Foster/Adoption.

Sick Leave Personal Wellness leave is to be used only 1 hour per month and that the agencies need to monitor the leave usage a little closer.

Patient Protection and Affordable Care Act (PPACA) is a measure that mandates employers to offer hourly employees that work at least 30 hours a week, insurance coverage. The departments need to be aware of this in case they would need to offer insurance coverage to an hourly employee.
